COLORED HOBO KILLED.

A colored hobo, beating his way from Cincinnati to Paris, on an L. & N. freight train, was killed here Friday afternoon, when he fell in alighting from the train at a point near the storage elevator of L. D. Mitchell.

In falling the man's head struck with great violence against a retaining wall at the side of the tracks. He was picked up and hurried to the Massie Hospital, but died before reaching the institution. His skull was fractured.

The body was taken to Corbin & Martin's undertaking establishment and prepared for burial. He was identified Sunday as Howard Hall, of Little Rock, this county, who had been working in Ohio for the past six months, and was returning home. The body was sent to his old home yesterday for burial.

Senator McCormick must be looking for notoriety. His first act on returning from Europe was to refuse to be interviewed.

MR. HANCOCK CONFERS WITH SENATE COMMITTEE

The following appeared under a Washington date line in the daily papers Sunday: "A. B. Hancock, of Paris, president of the Thoroughbred Horse Association, is in Washington for conference with members of Congress in regard to the Army Remount Service appropriation. The House has refused to increase the appropriation from the \$100,000 reported by the committee to \$250,000, which army officials and prominent horsemen believe necessary to maintain the efficiency of the remount service.

"The Senate will be asked to increase the appropriation."

LODGE NOTES

The Paris Masonic Lodge will give a banquet in the Masonic Temple on Monday evening, February 14. Music will be furnished by the Paris Orchestra. All Masons, their wives, sisters and sweethearts are cordially invited and expected.

The Odd Fellows' Home, at Lexington, is erecting a hospital addition to the home which will be a great convenience. The new hospital will accommodate about twenty-five patients.

The Millersburg Chapter Eastern Star conferred the degrees on a number of candidates at the recent meeting of the Paris Chapter of that order. A social hour followed.

About twenty members of Paris Lodge, No. 2, F. & A. M., went to Carlisle, Friday night, to attend a meeting of Daugherty Lodge of that city. They witnessed the raising of eight candidates to the degree of Master Mason. Following the ceremony a banquet was served by the members of Daugherty Lodge.

APPELLATE COURT ORDER

In the Court of Appeals at Frankfort, Saturday, the following order was entered in a case from the Bourbon Circuit Court:

"Roberts vs. Parsons, Bourbon; Roberts vs. Parsons, Bourbon; appellees filed brief."

WILL URGE REDUCTION IN TOBACCO ACREAGE

Announcement has been made by John W. Newman, president of the Burley Tobacco Growers' Association, that he would recommend a 50 per cent. reduction in the 1921 Burley tobacco acreage at the meeting of the association's board of directors, which will be held in the Lafayette Hotel February 12, call for which was issued by President Newman, Friday morning. In announcing his proposed action, Mr. Newman said that he would urge an even greater reduction in acreage, if the conditions warranted.

In addition to taking action on the recommendation the board will elect officers for the Burley Tobacco Marketing Company, the subsidiary organization which has been formed to handle the sale of low grade tobacco direct to European buyers and by converting it into commercial fertilizer for sale on the open market.

Mr. Newman, who has just returned from a trip over the tobacco producing sections of Kentucky, said he believed the proposed reduction would receive the hearty support of landowners and tenants. He declared there was no intention of any attempt to force any reduction on the Burley tobacco growers, but an effort would be made to create a movement for at least the 50 per cent reduction in the crop this year. Nor is it the association's plan, he said, to request the small grower to make any reduction.

BASKET BALL GAMES

The Paris High School boys and girls teams played a double-header Friday night at Lexington with the teams of the Lexington High School. Lexington won both games, defeating the Paris boys by a score of 46 to 14, and the girls team by the score of 11 to 10. Both games were hotly contested. The Paris teams lined up as follows:

Boys—Tucker and Dundon, forwards; Wright, center; McClintock and Clark, guards. Girls—Hall and Rule, forwards; Baldwin, center; Wallingford and Patton, guards. The games were refereed by Kimbrough and Barclay. Every player on both Paris teams did good work and fought every inch of the way. Lexington papers comment on the games as follows:

"The visitors were so hopelessly outclassed in every point, the game became little more than a goal shooting tournament for the Lexington bunch. Paris High has a good, fast and well-trained team, but it was absolutely out of its class last night.

"The Lexington High girls were lucky to get out on the big side of a 11 to 10 score when they tied into the Paris girls in the curtain lifting event. The Paris team was about the snappiest piece of machinery the local five has tried to stop this season. The affair was a nip and tuck contest in which neither team was superior to the other and the scores went one way and then another at regular intervals. Paris held the lead at the end of the first half with the score 4 to 3."

The Paris Y. M. C. A. basketball team will play the Lexington Knights of Columbus team on the Y gymnasium floor to-night, the game being called promptly at 8 o'clock. The Lexington team has been seen in action here before, having played the Paris K. of C. team in the early part of the season. A real battle is expected, as both teams have a strong playing organization. Paris has gained a strong player in Dawes, who played a star game against Cynthia's Athletic Club team last week. The probable line-up for Paris will be: Roberts and Chipley, forwards; Dawes, center; Porte and Burnett, guards.

SUNDAY AFTERNOON FIRE

Fire originating from an overheated stove at the home of Mary Berry, colored, on High street, Sunday afternoon, did damage to the building estimated at \$350. There was insurance of \$600 on the building. Furniture and household goods sustained a damage of about \$200, on which no insurance was carried. The fire department responded to an alarm and soon had the flames under control. The department did excellent work in preventing damage to surrounding property, the Berry home being very close to the residence and garage of Dr. F. P. Campbell and others.

AUDITOR GIVES O. K. TO LOCAL Y. BOOKS

Mr. Homer S. Tucker, business secretary of the Kentucky State Y. M. C. A. was in Paris last week auditing the books of the Bourbon County Y. M. C. A. Mr. Tucker stated that he found the books of the local association in excellent condition. The audit showed the following:

The schedule is equally full for February. On Tuesday, the 8th, the Y basket ball team meets the Lexington K. C. team on the Paris floor for the first contest. Other games are scheduled for the month.

INVISIBLE GUESTS

The European Relief Council, through its Chairman, Mr. Herbert Hoover, has recently placed at each of the American Railway Express offices consecutively numbered Invisible Guests Certificates to be sold for the purpose of feeding and clothing the three million five hundred thousand starving children of Eastern and Central Europe. These certificates may be purchased at the local express office in amounts of \$1 up, and it is to be hoped that all those who have not contributed will take advantage of this opportunity for real service. The ministers of our city are respectfully requested to announce this at their regular church services.

PARENT-TEACHER ASSOCIATION CAMPAIGN

A campaign for funds to further the work of organizing Parent-Teachers' Associations in Kentucky has been inaugurated by the State Association of which Mrs. Betty S. Harris, of Frankfort, is State organizer. An official of the national association has agreed to match dollar for dollar for every dollar raised for this purpose. The organization has as its aim the promotion of better relations between parents and teachers and the general improvement of schools.

SERIOUS CUTTING AFFRAY

In a difficulty which occurred near the Liggett & Myers redrying plant between Thomas Creech and Wilbert Williams, both colored, Creech was badly cut about the face, neck and shoulders. He was in a very serious condition from the loss of blood when taken to the Massie Memorial Hospital. Williams was placed under arrest by Patrolman George M. Hill and lodged in jail to await the result of Creech's injuries. An eye-witness to the affair stated that Creech "was cut everywhere except his tongue, and that nigger was slashing at that."

THE TOBACCO MARKETS

The Bourbon Tobacco Warehouse Co. sold yesterday 141,130 pounds of tobacco for \$19,844.98, an average of \$14.06. The offerings were medium, only a few crops of much merit being on the market. The best sale of the day was a crop of 1,080 pounds, belonging to Caywood & Crouch, which brought an average of \$26.41.

Following the sales held at the Bourbon Warehouse, Thursday, the New Independent Tobacco Warehouse Co. sold a total of 169,850 pounds of tobacco for \$25,043.29, an average of \$14.75. The best sale of the day was a crop of 5,375 pounds, belonging to Howard & Barnhill, which brought an average of \$24.09.

Sales were resumed Friday at the Bourbon Tobacco Warehouse, where a total of 226,550 pounds went under the hammer for a total of \$30,929.35, an average of \$13.65. The quality of the offering was very poor. Many growers are again hauling low grade tobacco to the market with the result of much lower averages. The best average in this sale was on a crop of 2,790 pounds belonging to Hancock & Case, which sold for an average of \$31.05.

Insurance companies which write policies on farm crops have reduced their liability on tobacco in Central Kentucky to \$100 an acre, according to announcement made at the Burley tobacco belt. The lowering of the valuation was made as a result of the prices brought for the 1920 crop. When the insurance was originally written, companies permitted valuations as high as \$500 and \$400 an acre based on the price for the 1919 crop.

Belief that the movement to cut out the 1921 tobacco crop is a dead issue, and that the Burley Tobacco Growers incorporated, the organization formed with the avowed purpose of fostering the cut-out movement, will never call a meeting for the election of a head following the refusal of J. N. Kehoe to serve in that capacity, was expressed by Frank McKee, of Versailles, who was temporary chairman of the organization while it was being formed. "It is impossible to enforce a cut-out program with the present crop being sold," Mr. McKee said, adding that such an attempt would be like the old precaution of locking the stable door after the horse is stolen. He said that pledge cards had been sent out through the Burley district and many growers had signed them, but that they were not to be considered binding unless seventy per cent of the growers would sign up and he indicated that he did not believe that many could be induced to sign with the present crop being sold.

MAYSVILLE BOYS' BAND AT LEXINGTON FAIR

The famous Boys' Band, of Maysville, will play for the Blue Grass Fair, at Lexington, the week beginning September 5, during the great annual exhibition there.

The band will arrive Sunday before the fair opens and will give a concert that night.

The contract has been signed by J. Barbour Russell for the band, and Ken Walker, secretary of the Blue Grass Fair Association.

Thirty-five to forty boys and the three girl members of the noted organization will play in Lexington. George B. Barnard, one of the country's most notable band leaders, being in charge.

The Maysville aggregation is said to be the only band in the country which carries its own physician. Its medical expert is Dr. P. G. Smoot, who is also a colonel on Governor Morrow's staff.

FOR THE FREEDOM OF IRELAND

The cause of Ireland was given a boost when the Paris Council of the American Society of Recognition of the Irish Republic was organized here recently. The first public meeting of the organization was held in the Catholic Hall, on High street. The Council organized with a membership of about one hundred. The following officers were elected: Edward H. Gorey, president, Mrs. Edward Burke, vice-president, Mrs. James H. Shea, secretary, John T. Kane, treasurer. The next meeting will be held in the Knights of Columbus Hall, on Main street, Thursday night, at eight o'clock.

The object of the organization is to assist and aid in forming public sentiment in favor of making Ireland a free and independent State, under a republican form of government, and to help the efforts being made along that line in the old country. An active campaign for membership will be made.

—Dr. Alice Salomon has established a school in Germany which teaches a special course for training women of the working class to do social work.

COMMERICAL CLUB ACTIVITIES

A meeting of Paris citizens interested in city planning will be held at the office of the Commercial Club to-morrow (Wednesday) night at 7:30 o'clock. Frank T. Hagan, architect and engineer, will read a paper on city planning and explain what city planning embodies and the results of a survey he has been making of conditions in Paris.

The Board of Directors will hold a meeting to-night at 7:30 o'clock at the Peoples-Deposit Bank. A conference of department directors and committee chairmen is being planned for next week to perfect the machinery of organization. The Entertainment Committee, of which C. B. Harrison, secretary of the Y. M. C. A., is chairman, will meet Saturday to make arrangements for future noonday luncheons.

A committee, of which Mrs. Owen L. Davis, is chairman, will appear before the City Council at its next regular meeting to present recommendations for cleaning the streets of Paris, including passage of a garbage ordinance.

It is expected that the department directors and all the chairmen of standing committees will meet Friday evening, when Secretary W. E. Hacker will outline the duties of each department and present a program of work.

The next Commercial Club noon luncheon, which will be held next Tuesday, will be served by Mrs. J. H. Moreland's Sunday School class of the Christian church. It will probably be held in the room formerly occupied by the Bourbon Oil and Development Co., in the Wilson Building, Third and Main streets. The class held a business session Sunday, when it was decided to serve the next two luncheons to be held February 15 and March 1. Other women's societies desiring to serve luncheons can arrange their dates with William E. Hacker, secretary of the Commercial Club. The entertainment committee is working out a schedule of committees of the membership to arrange the programs for the luncheons hereafter.

Harris Says Her Recovery Since Taking Tanlac Proved Big Surprise To Her Friends

"My recovery since starting on Tanlac has been a surprise to myself and all who knew of my dreadful condition," said Mrs. T. H. Harris, of 627 Gum Street, Lynchburg, Virginia.

"About a year ago last October I had a bad spell of influenza that left me in a terribly run-down condition. I could hardly even think about eating and even the little I forced down always gave me indigestion. I had terrible spells of swimming in the head and I had to sit down to keep from falling. I spent days at a time in bed, and even when I was up I was so weak I just dragged about the house. Nothing helped me and I lost weight until I was almost a skeleton and my family and friends had no hope of my getting well.

"But Tanlac has not only relieved me of these troubles, but has built me up twenty-five pounds in weight besides. The first few doses got me to feeling better and now I have such an appetite I can hardly eat enough to satisfy it and nothing ever hurts me. All my aches and pains have left me, I feel like a different person altogether and am so much stronger I can do all my work without any trouble."

Tanlac is sold in Paris at the Peoples Pharmacy. (adv)

advertiser and buyer of printing to object to the reasonable advances in prices which country publishers and printers are establishing for the continuation of their business.

The country printer and publisher, with few exceptions, has never enjoyed the remuneration demanded by his banker, grocer, clothier, lumber dealer, carpenter, bricklayer, plumber, painter, and representatives of various other mercantile lines and trades. It may have been his own fault. He may have been too "fair" with his patrons and not fair enough with himself. Be that as it may, within the last several months he has been given stern object lessons in business economics, and as a class has become convinced that he is entitled and intelligence and ability required, on a par with other businesses to a compensation for his capital compared to his. And he is right.

Even though there is a general falling market, prices will for several years remain at a higher level than before the war. The printer and publisher will have to pay more for the things he has to buy for himself, his family and his business, and it is therefore right for him to ask and receive better prices for what he has to sell, and lay a new foundation that will hold up his business structure under the new conditions which will assail it. Those who have not already done so should lose no time to protect themselves in this matter. And those printers and publishers who have been able to establish a price level fair to themselves and their customers should be deaf to importunities for a reduction.

It is to the shame of hundreds of communities all over the country that the local papers and printing plants have been sufficient for the proprietor to continue them and maintain self-respect as a citizen and a business man.—Publishers' Auxiliary.

New Fishing Methods.

A Lamont man who is charged with having taken a fish from a private fish pond declares the fish were so tame that one of them was eating out of his hand, and he simply closed his fingers on it and carried it away. His own method has always been to whistle to the creatures from across the fence, and walk away, innocent-like, while they trot down the road after us.—Detroit News.

YOU don't use as much of Calumet as you do of most other Baking Powders. It has more than ordinary leavening strength. You save about half.

You don't pay a big price for Calumet. It's sold at a moderate price—that represents another saving.

You don't feel uncertain as to results. Baking never fails—because Calumet never fails below the proven standard of "Best by Test."

It possesses the highest quality ever put into a Baking Powder. Contains only such ingredients as have been officially endorsed by United States Food Authorities.

For weeks, for months, it keeps as fresh and full of strength as the day it left the Calumet Factories, the World's Largest, most Sanitary and Modern Baking Powder plants.

It is important that you use only straight wheat flour (not self-rising flour) and pure baking powder if you wish to obtain the gluten demanded by sound health.

Calumet Gold Cake Recipe

Yolks of 8 eggs,
1 1/2 cups of granulated sugar, 2 1/2 cup of water, 1/2 cup of butter, 2 1/2 cups pastry flour, 3 level teaspoons Calumet Baking Powder, 1 tablespoon of vanilla. Then mix in the regular way.

For the Family Table

Not so very long ago the thought occurred to us. Why couldn't Oleomargarine be churned like butter in such a way as to eliminate that oily texture and after flavor that is very distasteful and kept many from using. We were sure that Oleomargarine was not made right.

After a good many months experimenting, we were finally successful and today MIOLO is churned like butter—tastes like butter—has the natural butter texture. The minute you open the carton you notice the sweet buttery aroma of MIOLO.

Such arrangements have been made with the following dealers that they have MIOLO fresh from our churns at all times and at almost half the price paid for butter. Just try one pound with our money back guarantee.

PALE FACED WOMEN TAKE PHOSPHATES TO MAKE ROSY CHEEKS AND BEAUTIFUL FORMS

MEN NEED PHOSPHATES TO MAKE STRONG, VIGOROUS BODIES

Athletes Increase Their strength, Energy and Endurance 200% or More
By Simply Taking a Few Weeks' Treatment of Argo-Phosphate

Atlanta, G.—Dr. F. A. Jacobson says that Phosphates are just as essential to any man or woman who tires easily, is nervous, or irritable, worn out or looks haggard and pale to make a strong, robust, vigorous body, as they are to cotton to make it grow. The lack of Phosphates is the cause of all anemic conditions and the administration of 5-grain Argo-Phosphate tablets will increase the strength and endurance of weak, nervous, care worn men and women 300 per cent. in two or three weeks time in many instances, and their continued use will build up the whole nervous system, and give new life, vim, vigor, and vitality to the whole body. I always prescribed to patients who are pale and colorless, and it is surprising to see how quickly a few weeks treatment will transform a pale face to a rosy cheeked beauty. There can be no rosy cheeked, healthy, beautiful women, without their system in sufficient supply with Phosphates. In recent interviews with physicians on the grave and serious consequences of a deficiency of Phosphates in the blood of American men and women, I have strongly emphasized the fact that doctors should prescribe more phosphates in the form of Argo-Phosphate for weak, worn out, haggard-looking men and women. When the skin is pale, and flesh flabby, it is a sign of

anemia. When the phosphates go from the blood, the pink cheeks go too. The muscles lack tone. They become nervous, irritable, despondent, melancholy, the brain fags, and the memory fails. Therefore if you wish to preserve your youthful vim, vigor and vitality, to a ripe old age, you must supply the deficiency of Phosphates lacking in your food by using Argo-Phosphate, the form of Phosphates most easily assimilated.

NOTICE: Argo-Phosphate which is recommended and prescribed by physicians in all anemic cases, is not a secret or patent medicine, but one that is sold and recommended by well known druggists everywhere, and physicians are daily prescribing the constituents contained in it. Being entirely unlike many other Phosphates, it is easily assimilated and will be found effective in the treatment of indigestion and stomach troubles, as well as for care worn, nervous conditions. The manufacturers of Argo-Phosphate will forfeit to any charitable institution \$200.00 if they cannot treat any man or woman under 65 who lacks Phosphates, and increase their strength and endurance from 100 per cent. to 300 per cent. or more in one month's time, if they are free from organic trouble. It is dispensed by Brooks & Snapp Drug Co. (adv)

STATE NOW HAS A TRAVELING LIBRARY.

The Kentucky Library Commission has some Traveling Libraries and is ready to send them to any group of people anywhere in the State who wants books to read. These may be had by writing to the Commission at Frankfort. The libraries are sent by writing to the Commission at Frankfort. The libraries are sent out in cases, fifty volumes in a case, and may be kept for six months. The only charge is \$2.00 to cover shipping costs. Stories, books of travel, history, children's books, are some of the subjects covered. Some libraries are made up entirely for children's use in the schools. Any teacher can get one. There are also Boy Scout libraries and farmers' libraries. The latter contains fifteen books and may be borrowed in addition to a general library of fifty volumes. The State furnishes these books for the education and recreation of its citizens.

Books are being written to help in almost any business, trade or profession. The Kentucky Library Commission has many of these and lends them to any one in the State wishing to use them. The collection includes books on the following and many other subjects:

Automobile Repairing, Carpentering, Dry Cleaning, Electric Railway Engineering, Farming, House Planning, Oil and Coal Mining, Retail Buying and Selling, Road Building, Salesmanship, Sign Painting, Steam and Gas Engines.

These may be borrowed by writing the Kentucky Library Commission at Frankfort. The only expense is cost of postage.

AN ARMY MOVES ON ITS STOMACH

That's a Famous Saying of Napoleon's—He Might Have Said, Too, That Men and Women Work On Their Stomachs and Live Through Their Stomachs—You Can't Do Much Work or Enjoy Life When Your Stomach Is In a Bad Condition.

The Famous Four-Day Money Back Offer That Local Druggists Are Making On Re-Cu-Ma Gives Everyone Who Is Suffering from Stomach Disorders An Opportunity to See Whether Re-Cu-Ma Will or Will Not Benefit Them, at the Company's Risk.

On the health of the stomach depends your health. If you are suffering from stomach disorders life does not hold much pleasure for you. Thousands who have known the tortures of an ill functioning stomach have found relief in Re-Cu-Ma, the famous remedy which has won almost overnight a country-wide reputation. Re-Cu-Ma acts on the four most important organs of the body—the bowels, the liver, the kidneys and the stomach. It tunes up the whole system through these four organs.

The Re-Cu-Ma Company have such absolute faith in the merits of Re-Cu-Ma that they are offering to refund the money of anyone who, after using Re-Cu-Ma for four days, finds that they have not been materially helped. Could any offer be fairer? Positively not. Sufferers have everything to gain and nothing to lose by accepting this offer. If Re-Cu-Ma does help them as the company says it will they have learned of a remedy that will do them priceless good. If it does not, they have but to return the bottle, and every cent that they have paid for Re-Cu-Ma will be refunded.

Local druggists say that they expect hundreds of people to accept this offer immediately and there is no reason why their expectations should not be realized. A man who will not accept this fair offer does not want to get well very badly.

Sold by Brooks & Snapp and all good drug stores. (adv)

Danger in Incandescent Lamps.
Evidence that the high-power incandescent lamps now so commonly used for street lighting may not be wholly innocent as a possible source of fire was observed in southern California recently, says Popular Mechanics Magazine. A bulb hanging 20 feet above the ground suddenly burst and the white-hot particles of metal it scattered instantly ignited the dry grass at the foot of the pole. Fire wardens of the district are now advocating the use of suitable guards about the lamps.

Chinese Medical Practices.

In 796 the Chinese began to vaccinate. There were three vaccination stations in which the concoction was poured into the mouth. Stone needles were used to puncture swellings and the idea was not introduced into Europe until centuries later. Cauterization was practiced by burning the rolled leaves of a small plant. It was held to be good for rheumatism and nosebleed. Anesthetic effects were produced by certain mushrooms and the root of aconite. Cases of skin grafting are early recorded.

Oriental Peculiarities.

Chinese medicine developed a special fondness for fossilized "dragon bones," derived from extinct herbivora. They are also fond of "dragon teeth," as fossilized shells are called. In Shantung, glue is made from asses' skins. In a certain town of that province is a well, the water of which, when drunk by asses, makes their skins especially good for making glue. This glue brings a fancy price, as it is a famous tonic throughout China.

Wonderful Human Bones.

Human bones have a wonderful power of resistance. It has been proved that they will bear a pressure three times greater than oak and almost as much as wrought iron before being crushed.

GET MORE BUTTER

Mrs. Hattie Meece, of Glenn, Missouri, says: "I was not making enough butter from my cow's milk production for a family of two. After using Dr. LeGear's Stock Powders a short time, she gave a half-gallon more milk a day, and a pound of butter a day."

Dr. LeGear's Stock Powders give to milk cows just what is needed to keep the digestive organs in proper condition, so that they get the most possible good from their feed. Give equally wonderful results when used for horses, hogs, and sheep, because they are a tonic, appetizer and worm expeller.

It matters not what ailment you may have among your stock or poultry, it will pay you to get the proper Dr. LeGear Remedy from your dealer. They are the Doctor's personal prescriptions, compounded during his 28 years Veterinary Practice and Expert Poultry Breeding. They must satisfy you, or your dealer will refund your money. (adv)

TRIAL OF WINNES RESUMED IN APRIL.

The jury at Harlan, trying Dr. H. C. Winnes, for the murder of Miss Laura Parsons, was discharged Friday afternoon, after the lone juror, who for four days and nights clung to his stand for conviction, threatened with knife drawn to do violence to any juror who persisted in arguing with him. The following developments followed in quick succession:

Judge Davis overruled a motion for the defense to squash the indictment on the ground that two of the twelve grand jurors returning it had failed to hear the testimony.

A. Floyd Byrd, special prosecutor, announced that the Commonwealth would ask a change of venue at the next trial, which the defense will oppose.

The case was reset for trial at the next term of court, for Friday, April 15.

Dr. Winnes' bond, formerly \$10,000, was reduced to \$5,000, which was signed by a dozen business and professional men of Harlan.

Just when Gov. Morrow wanted to forget all about the last election, the Secretary of State comes along with the publication of the official vote.

The "foot-and-mouth" disease will soon break out among the candidates. An unfailing manifestation is when the office-seeker opens his mouth only to put his foot in it.

If the consumer can stop eating and make his old rags do for a decade or so, he should eventually live to see the reduction in prices sometime or other, or other passed on to him.

This country has laws for about everyone except the miscreants who get caught. It is so difficult to fit their particular cases they frequently slide out and do it all over again.

"One needs money to go to the moon," says Professor Goddard of Clark University. Thus have we an eminent authority's opinion that the important part of going up is coming down.

While there has been a decline in the wholesale prices of foodstuffs, some of the retailers seem not to have heard the news. Uncle Sam should undertake the job of shouting it in their ears.

"How To Hold A Husband," is worrying the pages of some of the women's journals. Diffidently, we submit a lyrical prescription, of yesterday: "Make him put his slippers on and be sure his shoes are gone."

A man who speaks seven languages wants to sell himself for \$1,000 a year. Another man wants to sell his body and soul for \$2,500. Up to date there have been no bidders. No one wants a soul that has been used.

Some people go to church and others go to political meetings, but those who find themselves so placed that they cannot tell which of the two they have wandered into are entitled to have their doubts cleared up.

Veterans of the overall movement of a year ago point with pride to the fact that they gave the first kick that started the downward movement of clothes prices. In time we may have an organization of Ancient and Honorable Sons of Overall Wearers.

"Jazz Music" has found its way into Tahiti. To our way of thinking all jazz music must have come from Tahiti, Timbuctoo, Singers' Alley, Sandy Bottom, or some of the other classical precincts, not registered in the social registers, and that's where jazz "music" ought to be relegated, there to stay forever!

We think two pretty Paris girls used very little tact Sunday afternoon. They ought to know that when they get on the crowded city car and stand right in front of a poor, tired man who has spent the day reading four Sunday newspapers, it is going to make it uncomfortable for him to keep his seat.

A Question

Sunday baseball is licentious,
Sunday motoring a sin,
Sunday movies are degrading,
Sunday strollers must stay in,
Sunday cooking is disgraceful,
Sunday dancing a crime,
Sunday smoking blights our morals.

Sunday singers must do time,
Sunday phonographs are harmful,
But will some one tell us, pray,
How they are worse on Sundays
Than on any other day?

Chess vs. Checkers.
Chess appeals to mature minds, and wood supplies most of the accoutrements with which it is played. Some of the best are of ebony and boxwood, but very satisfactory games may be played with yellow poplar, bass wood, walnut, maple and birch outfits, says the American Forestry Magazine. The same holds true on checkers, but that game usually is rated a little lower than chess in scientific points, though no less an authority than Edgar Allan Poe holds that as a mental exercise of the highest and purest sort checkers surpass chess.

They Resist Decay.

The Northwest Indians nearly always made their totem poles out of western red cedar, but this choice was probably due more to the fact that the wood is easy to work and extremely durable, rather than to its fragrance, says the American Forestry Magazine of Washington. It may be taken as a very good general rule that woods that are scented are resistant to decay and insect attack, and have good cabinet qualities.

In response to the inquiry of many telephone subscribers: "What can I do to help my service?" this advertisement is published.

"My Bell Rang"

"Excuse it, Please"

Hundreds of times every day telephone subscribers start a call and abandon it before it is completed. They hang up the receiver before getting an answer.

In some cases the person called is slow in answering. In many cases the person calling decides the call is not desired.

The result is that annoying report, "My bell rang," and needless answering and waiting at the telephone.

Almost every one who is disturbed in this way naturally blames the operator for the inconvenience.

We instruct the operators to say "Excuse it, please," to avoid an argument.

Care in this matter will greatly reduce the number of unnecessary calls and assist the operators in their efforts to improve the service.

HOW MANY FRIENDS HAVE YOU?

How many friends have you? Edmund Gosse, to whom Robert Louis Stevenson wrote his last letter, said the other day that he "did not believe Stevenson had 20 real friends; yet he was the incarnation of friendship."

Twenty friends may seem a small number to you. But take the Standard Dictionary definition, "An intimate and trustworthy companion," and make your own list of companions both trustworthy and intimate. Will it show a score? The word has been hammered thin by usage until, as commonly employed, it applies to every acquaintance to whom one is amiably disposed—to his neighbors, business, church and club associates, boyhood companions, and college chums. Yet every man knows there is a distinction between an agreeable acquaintance and a friend alike in fair weather and foul. More reluctantly, men admit the distinction between their friends and those others whom they see, but rarely and yet whom they value, turn to instinctively in their own troubles and count it a privilege to help should they need it. These are trustworthy companions but not intimate. They may be called potential friends.

Some men have any number of intimate companions, others apparently few. But nature has a way or redressing the balances. Often it happens that the silent, rather aloof man finds when trouble comes that many have been wishing him well, taking systematic note of his goings and comings, unconsciously approving his deeds, and are eager to serve him in his need. A man's actual friends may be less than a score, but the number and volume of his potential friends are among the finest facts of life.

Many Pangs That Pass For Rheumatism Are Really Due to Weak Kidneys.

Is it rheumatism?
Not every pain is.
Weak kidneys let uric acid collect.
Uric acid causes many queer pains.

In the nerves, neuritis.
Gout, gravel, dropsy are uric troubles.

When you suspect the kidneys use Doan's Kidney Pills—
The home-recommended remedy.
Paris testimony is the best proof.
Ask your neighbor.
Read this Paris woman's story:
Mrs. J. N. Reynolds, 255 Winchester street, says: "I have found Doan's Kidney Pills to do me more good than any remedy I have ever used and I recommend them highly. I suffered from rheumatic pains and kidney trouble. I could always tell when the weather was going to change as my limbs would become dizzy, especially when I first got up in the morning. My kidneys were not acting regularly, either. I was not long in getting relief after I began using Doan's Kidney Pills and felt better in every way after using them."

STOPPED HIS PAPER

THE NEWS recently received a note from a subscriber saying that unless some of his neighbors subscribed for the paper, he would have to discontinue his subscription. He said that some of his neighbors seem to beat him to it most of the time.

THE NEWS receives many complaints from subscribers who say their neighbors continually borrow their paper, often before the subscribers have read it. And then the subscribers put the blame on the carriers.

If you are reading a borrowed paper to-day, you should ask yourself whether you are inconveniencing a neighbor who is too good-natured to refuse to be annoyed. You, of course, do not intend to do so, but if you are borrowing a paper you are causing the subscriber much annoyance.

Think it over and then become a subscriber, and have your own paper delivered to you.

FORMER PARISIAN'S HOME BURNED IN FLORIDA

Southern College, at Sutherland, Florida, operated by Dr. and Mrs. E. H. Alderman, formerly of Paris, was burned to the ground several days ago, being a total loss. Mrs. Alderman was formerly Miss Jennie Purnell, daughter of the late Judge and Mrs. Wm. Purnell, and a sister of Mr. Lytleton B. Purnell, of Paris.

The fire was discovered at four o'clock in the morning, having originated over the kitchen in an annex recently completed. The girl pupils managed to escape in their night clothes before the fire gained too great headway. The boys' dormitory and the gymnasium adjacent, were saved. Dr. and Mrs. Alderman lost all their household goods and personal effects.

Dr. and Mrs. Alderman are now at Clearwater Beach, where the school will be reopened temporarily.

FEBRUARY COURT DAY

Although there was a large crowd in the city yesterday the volume of business transacted was not very large, according to reports.
